One Newsfeed

Individual box newsfeeds have been removed. Tiqbiz now streams all your selections into one newsfeed.

Your box selections are shown at the top of each newsfeed post.

Note for people connected to a school:
The new tiqbiz does not require the 'Whole School' box and in most cases has been removed from schools accounts. Simply select the boxes that apply to you and you will receive all the relevant information from your school.
Changing your box selections

All of the boxes are located inside your home page. Changing your selection is done by simply clicking ‘Add’ or ‘Remove’

Click menu icon to open box options

Our reason for change.

Messaging is being driven in a global direction by the world's biggest companies such as Google, Apple, Facebook and others, so people are rapidly expecting all app platforms to conform to a worldwide standard.

With this standard comes an expectation from your school's community of app speed, performance and security. We believe it is our responsibility to make sure your school has the best school communication system in the world.

If we didn't invest in change and provide you with a product that meets world standards, at some point in the future you'd not be happy with us.

We understand that there will be a learning curve but it has a lot of benefits.

We have added a lot of new features into this new generation tiqbiz that are designed to give you more advanced ways to communicate with your school's community.

We've also decided to remove some things that we believe are not a part of the future in app communications.
